## Solutions for ARCHITECTS

Barrette Professional Solutions provides architects, spec writers, and engineers, products and services to allow you to design outdoor living spaces that will come to life for your clients. By partnering with Barrette, you are accessing innovative, attractive product solutions that are stylish and safe. Our approach with the architectural community has always been to teach and educate, not sell.

Available architectural assets include:

- CEU accredited courses
- References and testimonials
- Full library of technical resources such as CAD and BIM modeling
- Budget installed costing
- Library of installation videos and printed instructions
- Fully supported web sites with architectural resources
- Samples for architects
- Code documentation
- Nationwide engineering – affiliations with licensed engineering firms across the US, which will allow us to meet the needs of the local engineering criteria

## Solutions for BUILDERS

Barrette Professional products have been engineered to meet the needs of the new home construction market by providing a wide range of decking, railing and fencing products that are easily installed, nationally distributed and exceed commercial building code requirements.

To help meet the unique needs of our new home builder partners, Barrette Professional Solutions provides:

- Trade up story with price point options within each category
- National distribution – products show up on time via Barrette production facilities, logistics, and strategic distribution partners across North America
- Easy installation systems that will reduce labor costs
- Exceptional styling, and function – helping make your properties stand out
- Safety solutions with gates, pool fences, code approved railings and slip resistant decks
- Easily repaired products
- Lower maintenance
- Model homes
- B2B Rewards program
- Take off and estimating services

## *Solutions for* **CONTRACTORS**

Barrette offers products that have been engineered to solve installation challenges for contractors. The result is to save time on the job site, help reduce labor costs and have a direct impact to your bottom line. Barrette's competitively priced products are built to last, and as such, have extremely low call backs saving time and money for our contractors.

Additional contractor benefits include:

- Product trade up offering to allow for sell up
- Delivery options
- Estimating and take off support
- Aligned contractor incentive programs including our B2B Rewards program
- Installation videos and printed instructions
- Complete training on all products
- Fully supported web sites with contractor resources
- Code documentation
- Nationwide engineering – affiliations with licensed engineering firms across the US, which will allow us to meet the needs of the local engineering criteria

## *Solutions for* **PROPERTY MANAGERS**

Products from Barrette are often used to solve outdoor living needs in apartments, multi-family housing, senior living facilities, workforce housing, military housing and hotels/motels. We understand your needs as a property manager – keeping your tenants and visitors safe and secure, while providing a marketable space that will help attract future guests and occupants.

To help meet the unique needs of our multifamily partners, Barrette Professional Solutions provides:

- Price point options
- National distribution – products show up on time via Barrette production facilities, logistics, and strategic distribution partners across North America
- Easy installation systems that will reduce labor costs
- Exceptional styling, and function – helping make your properties stand out
- Safety solutions with gates, pool fences, code approved railings, slip resistant decking
- Public spaces – boundaries – pool fences
- Products easily repaired
- Lower maintenance Rebates
- Take off and estimating services

# *Railing Solutions*

RDI® is our leading provider of privacy, aluminum, vinyl, steel, and composite railing systems.

RDI railing products are engineered to meet the needs of the commercial marketplace. Many products are factory fabricated to allow for fast and efficient installations, and all RDI products are stringently tested to exceed safety standards making them a smart, safe choice ... for you to specify, and for your clients to enjoy. Our products are also available nationally via our committed distribution network allowing us to meet the most demanding construction schedules. To see more details on all of our railing products, visit us at [www.rdirail.com](http://www.rdirail.com).

#### WHY RDI RAILING:

- Residential and commercial qualities
- IRC and IBC code compliant
- Aluminum, steel, composite, and vinyl options
- Innovative - over 20 product patents
- Take-off support
